

IMPROVE INKJET PRINTER PERFORMANCE WITH ABM QUALITY INKJET INKS

— VOC AS LOW AS 45 GRPL —
(Grams Per Liter)

ABM Marking provides a wide variety of inks for virtually all of the inkjet printers currently on the market. All Abm inks are formulated to exacting requirements of each printer. ABM also has extensive experience in the development of custom inks for special coding needs.

- **STANDARD GRADE INKS** — Standard grade black inks are available in three levels of contrast (STANDARD ink, HIGH CONTRAST and JET BLACK) and three colors - red, blue and green. Custom colors are also available. Medium and high density inks exceed sunlight resistance requirements for exposure in tropical areas as per TTI 1795.
- **SAFEMARK® JET INK** — These are water based non hazardous inks, formulated with ingredients certified for use in Food, Drug, and Cosmetics. Excellent sunlight resistance, dry time, dot formation and penetration on porous surfaces.
- **NON POROUS INKS: ALCOHOL BASED** — These inks will mark on most nonporous surfaces. Medium dry time, non smearing, excellent resistance to sunlight, temperature, humidity and abrasion. Available in black, red, blue, green and ultraviolet dyes and in white, yellow, pale blue, pink pigmented.
- **MEK (Methyl Ethyl Ketone) INKS** — Dependable and consistent marking on most surfaces and coatings. Fast evaporation, high solids content, excellent dot definition and readability. Recommended for metal, ceramics and plastics. Available in black, violet, blue dyes; yellow, white, powder blue pigments. Customized colors are available. ABM MEK based inks, dyed and pigmented, can be used with any printer compatible with MEK solvents.

INK JET SYSTEMS ACCESSORIES

ABM also supplies inkjet printer accessories which help reduce costs by allowing the conversion of ink delivery systems to use larger ink supplies.

Bulk Ink Adapter - Pail cap fitted with a probe, float switch, dip tube and fittings for ink and pressurizing air. (Not for MEK inks.)

Microjet Adapter Kit - Allows conversion of ink delivery system to one gallon bag-in-box ink container

HI-RES INKJET INKS FOR TRIDENT® HEAD PRINTERS

Fully equivalent to the original ink sold under the various trade names that utilize the Trident printhead technology:

Equivalent to inks for most popular printers:

Marsh® BC77	Diagraph® PeI Series V300
Foxjet® VersaPrint V300	Willett® VP Barcode V300
ITI® V300	Matthews® IP9000 V300
VideoJet® 16-60L	Fas-co®
Weber®
