Stencil Applicators

Leave Lasting Impressions.

Marsh Fountain Rollers and Brushes can help you make quick work of the stenciling process by delivering ink impressions on a variety of surfaces without fading or flooding. Depend on these hard-working products for a productive stenciling experience, every time.

- **EFI Environmentally Friendly - Productive and Pro-Environment**

The efi Stenciling System provides a portable and convenient method of stenciling crisp, clear marks on a wide variety of porous and non-porous surfaces. The stencil marks are fast drying, permanent, as well as fade and sunlight resistant.

Best of all, since the inks have an ultra-low VOC content – they are more environmentally friendly to the operator applying the markings, and to the atmosphere. The inks are water-soluble and only require soap and water for clean-up. (No separate solvents required!) Since efi inks are also non-flammable, they are safer to use and easier.

- **Fountain Rollers - Productivity on a Roll.**

The pump action of Marsh Fountain Rollers gives you fast, uniform ink distribution without fading or flooding.

- Durable aluminum and brass construction for tough environments.
- Long lasting neoprene roller.
- Environmentally friendly – refill from Marsh quart or gallon ink cans and reduce packaging waste.
- Replacement foam rollers available.

- **Rolmark Pad & Roller System - Efficient and economical**

- Rollers available in 1.5” (38 mm), 3” (76 mm), and 4.5” (114 mm)
- Inexpensive stenciling system.
- Use Rolmark Ink on porous and non-porous surfaces.
- Can also be used with efi inks.
- Units sold separately.
- Only Rolmark or efi inks may be used with pad.

- **Rolmark Express - Minimize down time. Maximize productivity.**
- Designed to be a quick, easy to use tool. Offers the convenience of quickly changing ink cartridges, minimizing potential ink mess, and most importantly production down time.
- The Rolmark Express all metal, disposable ink cartridge becomes the strong, durable handle once it is screwed on the spindle roller assembly. It utilizes the same 3” neoprene roll that is used with standard fountain rollers.
- Cartridges contain 4 ounces of ink and are sold 8 per carton.

- **Fountain Brush - Fills in the gaps.**

The Marsh Fountain Brush ensures solid stencil coverage and strong clear marks. Great for uneven surfaces, such as crates, or concrete.

- No-mess operation – ink refill is at the handle end of the brush
- Extend product life with replaceable brush tips
- Use brushes for porous and non-porous applications with the appropriate ink
- Includes polypropylene cap to protect bristles
- Use with K or Rolmark ink
